Web Development Enthusiast

EDUCATION

Indian Institute of Information Technology, Bhopal
BTech Computer Science Engineering

December 2021 - Present
CGPA : 8.56

PROJECTS

Crypto Master <https://github.com/Ghosst141/cryptomaster>

- Developed a cryptocurrency price tracker web app using HTML, CSS, and JavaScript.
- Integrated real-time price updates and interactive charts for monitoring cryptocurrency trends.
- Designed a user-friendly interface for displaying cryptocurrency prices and market data.

Simon Game <https://github.com/Ghosst141/simongame>

- Built a digital Simon game with HTML, CSS, and JavaScript, challenging players to replicate color patterns.
- Implemented game logic for random pattern generation and user input validation.
- Designed a responsive interface with animated feedback for an engaging user experience.

Hotel Room Booking <https://github.com/Ghosst141/hotel-room-booking>

- Developed a hotel room booking web application using React, HTML, CSS, and JavaScript.
- Implemented features for users to search for available rooms, select dates, and make reservations, with a focus on a user-friendly interface.
- Managed finances by adding, editing, and categorizing expenses.
